

"We never lose. We either Win or Learn"

ABOUT US

We are Team Red Baron, a dynamic group of 30 undergraduate students from Pimpri Chinchwad College of Engineering , Pune. Our team is dedicated to the design, manufacture, and testing of Electric All-Terrain Vehicles (ATVs). We have transitioned from designing combustion ATVs to focusing on electric models, showcasing our adaptability and commitment to sustainable technology.

OUR VISION for innovation and engineering excellence drives us to compete in prestigious national and international competitions BAJA.

OUR MISSION is to innovate and build robust off-road vehicles, providing students with a platform to develop essential skills for their future careers.

E BAJA

E-BAJA is a prestigious intercollegiate motorsport competition where student teams design and build electric-powered All-Terrain Vehicles (ATVs). These vehicles are rigorously tested in extremely rough terrains and for maneuverability, showcasing the engineering prowess of the participants. The competition attracts around more than 100 teams annually and is structured into 2 key phases:

PHASE 1:- STATIC EVENT

- Virtual presentation of the team's All-Terrain Vehicle (ATV) concept.
- Assessment of the implementation plan and technical knowledge via a quiz
- Virtual Dynamic Event: Simulation of the vehicle's performance in a virtual environment.
- Virtual Static Events: Evaluation in categories including Design, Cost, Green efficient, Sales Presentation, and Innovation

PHASE 2:-DYNAMIC EVENT

- Technical inspection followed by dynamic events: acceleration, maneuverability, and suspension & traction.
- Static events including final Sales Presentation, Cost Presentation,Green efficient initiatives, and Innovation showcase.
- Concludes with a 4-hour Endurance race testing the ATV's durability.

E BAJA PARTNERS

SEASON 2026

OVERALL AIR 3

- AIR 4 Overall Statics
- AIR 4 Overall Dynamics
- AIR 4 Durability
- AIR 4 Sales Award
- AIR 5 Maneuverability
- Best 4WD vehicle in performance

ACHIEVEMENTS SO FAR

- Best Engineering Design Award X 7
- Overall static Award X 6
- AIR 1 in Sustainability Event X 2
- Highest National Rank :- AIR 2
- Highest International Rank :-10

Talent Access: Gain access to top engineering talent from PCCOE and BAJA for future recruitment.

***CSR Contribution: Support innovation and education in sustainable automotive technologies.**

***80G Tax Deduction: Contributions above ₹50,000 to PCCOE are eligible for a 50% tax deduction under the Indian Income Tax Act, Section 80G.**

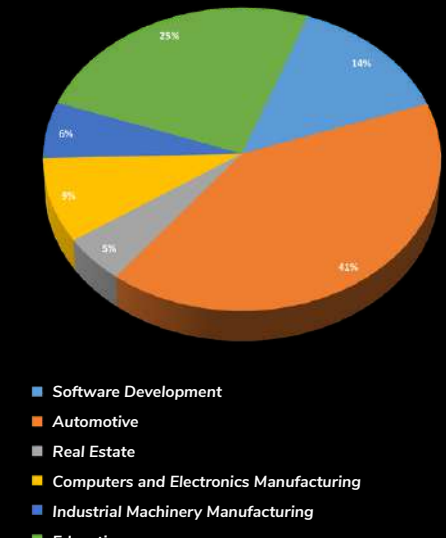

SOCIAL MEDIA BRANDING

Instagram

4100+

As a student team, we present an excellent opportunity to amplify your brand through a targeted social media campaign. With over 4100+ followers and a potential reach exceeding 30,000 we offer significant exposure.

Linkedin

750+

Our team is actively involved in promoting our journey, events, and achievements across platforms like Instagram, LinkedIn and YouTube where we engage with a passionate audience of motorsport enthusiasts,
students, and young professionals.
By aligning with our team, your brand will benefit from authentic interactions with a highly engaged audience, driving awareness and Promote brand loyalty.
